Holdings and characteristics are subject to change. Percentages may be rounded.

**Important Risks:** Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Small-cap securities can have greater risks, including liquidity risk, and volatility than large-cap securities. • Growth investing style may go in and out of favor, which may cause the Fund to underperform other equity funds that use different investing styles. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. • The Fund's investments may fluctuate in value over a short period of time. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur.

**Beta** measures the volatility of a portfolio relative to a benchmark. A beta of less than 1.00 indicates lower risk than the market; a beta of greater than 1.00 indicates higher risk than the market. **R Squared** represents the percentage of the portfolio's movement that can be explained by the market. **Turnover** is a measure of the Fund's trading activity which represents the portion of the Fund's holdings that has changed over a twelve-month period as reported in the Fund's current annual report. **Price/Earnings** is the ratio of a stock's price to its earnings per share. **EPS Growth Rate** is the projected growth rate in earnings per share for the next five years. **Return on Equity** is the average amount of net income returned as a percentage of shareholder's equity over the past five years. **Asset Weighted Market Cap** is the value of a corporation as determined by the number of outstanding shares of common stock multiplied by the price per share.
