Share Class Inception: A, I - 5/29/15; F - 2/28/17. Performance shown prior to the inception of a class reflects performance and operating expenses of another class(es) (excluding sales charges, if applicable). Had fees and expenses of a class been reflected for the periods prior to the inception of that class, performance would be different. Since inception (SI) performance is from 5/29/15. Performance and expenses for other share classes will vary. Additional information is in the prospectus. Only Class A assesses a sales charge. Performance for periods of less than one year is not annualized.

Benchmark: Bloomberg Municipal Bond Index is designed to cover the USD-denominated long-term tax exempt bond market. Indices are unmanaged and not available for direct investment.

### Expenses (%)

	I	F	A
Gross	0.64	0.50	0.82
Net	0.46	0.39	0.69

Expenses are from the Fund's most recent prospectus at the time of publication. Gross expenses do not reflect contractual expense reimbursement arrangements. Net expenses reflect such arrangements in instances when they reduce gross expenses. These arrangements remain in effect until 2/28/26 unless the Fund's Board of Directors approves an earlier termination. Without these arrangements, performance would have been lower.

Credit exposure is the credit ratings for the underlying securities of the Fund as provided by S&P, Moody's, or Fitch and typically range from AAA/Aaa (highest) to C/D (lowest). If S&P, Moody's, and Fitch assign different ratings, the median rating is used. If only two agencies assign ratings, the lower rating is used. If only one agency has rated the security, that rating will be used. Securities that are not rated by any of the three agencies are listed as "Not Rated." Ratings do not apply to the Fund itself or to Fund shares. Ratings may change.

Holdings and characteristics are subject to change. Percentages may be rounded.

**Important Risks:** Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Municipal securities may be adversely impacted by state/local, political, economic, or market conditions. Investors may be subject to the federal alternative minimum tax as well as state and local income taxes. Capital gains, if any, are taxable. • Fixed income security risks include credit, liquidity, call, duration, and interest-rate risk. As interest rates rise, bond prices generally fall. • Investments in high-yield ("junk") bonds involve greater risk of price volatility, illiquidity, and default than higher-rated debt securities. • Applying sustainability criteria to the investment process may result in foregoing certain investments and underperformance comparative to funds that do not have a similar focus. There is a risk that the securities identified by the sub-adviser as meeting its sustainable investing criteria do not operate as anticipated.

**Effective Duration** measures the sensitivity of an asset or portfolio's price to nominal interest rate movement.
